

Reliable, Scalable, and Proactive Managed Analytics Service

The Insight You Need,
Without The Hassle.

Managing data and analytics can be overwhelming and resource heavy. Without a streamlined approach, businesses risk performance slowdowns, missed opportunities, and added costs. Our Managed Analytics Service uses tools such as Power BI, Velox machine learning, and Azure to enable proactive monitoring, cost optimisation, and performance tuning. This allows you to focus on your core business while we handle your analytics solutions efficiently and securely - delivering the insights and foresight you need, without the hassle.

Key Benefits:

Monitoring & Support

We monitor your analytics environment around the clock, resolving issues proactively to minimise downtime and ensure everything runs smoothly.

Cost Optimisation

Reviews of your Azure billing help control costs, with targeted recommendations to improve efficiency while maintaining high performance.

Performance & Security

Performance analysis and security updates ensure your analytics platform stays fast, efficient, and fully compliant with evolving data protection standards.

What's Included?

- Proactive monitoring of your analytics environment
- Power BI report enhancements and updates
- Performance tuning
- Azure cost management reviews and recommendations
- Anomaly detection using machine learning
- Incident, problem, and change management
- Security and compliance checks

The Benefits for You

Avoid the Cost and Time of Training

Training employees to manage complex analytics platforms can add significant overhead. Our Managed Analytics Service helps you get to value faster and cheaper. By outsourcing to experts, you avoid the time and costs associated with training, hiring and maintaining specialised teams, allowing you to start benefiting from your data immediately.

Level the Playing Field

Not every business has the resources to build a dedicated team, but that doesn't mean you should miss out on critical insights. Our service gives small and mid-sized businesses access to the same level of advanced data analytics as companies with large in-house teams, to help you make data-driven decisions with confidence.

Scalable Solutions to Grow With Your Business

Our Managed Analytics Service is designed to grow as your business does. Whether you're expanding your analytics capacity, adding new tools, or scaling to meet rising data demands, we adjust the service to fit your evolving needs. No need to worry about scaling infrastructure or hiring new staff as your data requirements grow - our team handles it for you.

Simple Onboarding Process

Switching to a Managed Analytics Service is simple. We handle all the setup, configuration, and migration tasks, ensuring there's no disruption to your current operations. Our team works closely with you to ensure the transition is smooth, efficient, and tailored to your business needs, allowing you to see value from day one.
